

DANBRED

On-farm Training

DanBred Academy

DanBred offers highly productive genetics, top-level technical expertise, and systemised learning solutions. And we are solid believers in knowledge sharing!

We strive to support the business of our partners in everything we do, and that is why we have developed DanBred Academy – a knowledge and learning hub for all DanBred's stakeholders and pig production professionals worldwide. We make our vast knowledge available, so you can learn how to attain the full potential of DanBred!

DanBred Academy offers best practice articles, informative videos, service solutions, practical (and handy) manuals available in our app, and on-farm training.

DanBred has successfully implemented our thorough knowledge into pig productions all over the world. Our experiences show that this increases on-farm productivity, animal welfare and the level of health among the animals. Moreover, farm managers report an improved employee motivation and a reduced employee turnover.

Utilise the Full Potential of DanBred Genetics with On-farm Training

With DanBred's on-farm training programme you gain practical knowledge of how to systemise and efficiently run a pig operation that utilises the full potential of DanBred genetics.

We provide you with the tools that can help increase your production efficiency and optimise your production costs. Our unique training solutions will be tailor-made to support you and your business in the best way possible. The different elements include routines that can improve productivity, encourage responsibility and motivate leadership. All with the aim to add value to your business by supporting an economic and sustainable production performance.

DanBred On-farm Training Has a Positive Economic Outcome for You

Because It Provides:

- An increased understanding of professional pig production
- A further knowledge of pig and people management
- An improved understanding of the interplay between animal welfare and productivity
- A deeper knowledge of how to increase efficiency for the economic viability of the production

Important (and practical) Information

The price and length of your on-farm training will be tailor-made to fit your needs.

DanBred Academy Training Facilities

On-farm training takes place at different training herds specifically appointed by DanBred, and we do our best to match your needs with a suitable training facility.

Please contact us at knowledge@danbred.com for more information on how and where to book your on-farm training.

Your business. Our DNA.

DanBred is one of the world's leading international pig breeding companies supplying genetics and service solutions.

DanBred has highly reliable breeding data and is the first pig breeding company in the world to use genomic information from all breeding candidates when calculating breeding index, which amounts to more than 100,000 animals per year.

DanBred sets long-term, balanced breeding goals, which are revised regularly. This ensures that the genetic progress for the DanBred Duroc, DanBred Landrace and DanBred Yorkshire breeds delivers maximum profit and creates a sustainable high investment return for our customers.
See our breeding goals at www.danbred.com.

Well-documented genetics and comprehensive service solutions are the foundation of DanBred. This has made DanBred the first choice for leading pig producers all over the world who expect optimal, predictable business results.

DanBred P/S is owned by the Danish Agriculture and Food Council, Danish Agro and the former DanBred International A/S (now Holdingselskabet DBI A/S).
